CITY OF ADELANTO

**MEASURE I CAPITAL IMPROVEMENT PLAN  
EXPENDITURE STRATEGY  
Fiscal Year 2013/2014 – Fiscal Year 2017/2018**

The City of Adelanto intends to expend 50% of the anticipated annual funds towards maintenance on existing facilities; including routine asphalt maintenance like crack sealing, pot hole repair, and slurry sealing of existing improved roadways, under the Citywide pavement management system. Other maintenance items include modifications to existing sidewalk and ramps to bring them into compliance with current ADA regulations and modifications to existing street striping and signage to achieve Complete Street Goals to provide pedestrian and bicyclist facilities throughout the City. Lastly a portion will be retained to provide funding for routine traffic studies needed to update the congestion management program for the city.

The remaining 50% of the anticipated annual funds will be accumulated to expend on large projects such as street resurfacing projects, capacity improvement projects, extension and additions of new street facilities. These funds when not expended on the year received are carried over into the following year until sufficient funding has been built up to perform the highest priority projects. The City is currently focusing on improving the quality of the street sections that are impacted by local and regional commercial vehicles as they travel through the community.

## **TOWN OF APPLE VALLEY**

### **MEASURE I CAPITAL IMPROVEMENT PLAN EXPENDITURE STRATEGY**

Fiscal Year 2013/2014 – Fiscal Year 2017/2018

Measure I Local Pass-Through Funds will be used by the Town of Apple Valley for a variety of transportation related projects, including adding capacity to our regional arterial system, reconstruction, and regular and periodic maintenance of existing roadways. These Measure I funds allocated for the Town's local street program (68%) are allocated with a minimum of 50% of the funds expended on these roads identified specifically on our plan (categorical). For those roads specifically identified within the plan, some require that the Town accumulate Measure I revenue for such large projects. The balance of these funds, up to 50% of the total fund are identified for reconstruction and regular maintenance chosen based on the Town's priority within the Town's Pavement Management Program (non-categorical).

Executive Summary

In order to be eligible for Measure I funding through SANBAG, the City is required to annually adopt a five-year capital improvement program by resolution (Exhibit A).

Discussion

In 1989, Measure I was approved by the voters of San Bernardino County to establish a ½-cent sales tax increase for a 20 year period (1989 - 2009), with the revenues to be used towards street and road maintenance. In 2004, voters renewed the Measure I sales tax with 80.03% of voters in support of extending the measure through 2040. Measure I revenues are distributed in the following manner: 68% Local; 25% Major Local Highway Projects (MLHP); 5% Elderly, Handicapped, Transit; and 2% will be reserved in each subarea by SANBAG for Project Development and Traffic Management Systems.

To be eligible for the funding, each participating local agency is required to annually submit a five-year capital improvement plan (CIP) that is approved by each organization's governing board. The City currently receives approximately \$2.1 million annually from Measure I funds.

The proposed CIP list (Attachment A) contains a comprehensive overview of street improvement projects that have been identified by staff. It is important to note that the updated listing was coordinated to include more projects than we have funding for in order to maintain flexibility in utilizing Measure I funds for all of the road improvement projects in Barstow. Included in the listing are:

- The three street projects funded by the Total Road Improvement Program (Montara Area Project, Rimrock Area Project, and Henderson Area Project).
- The two additional projects identified through the City's pavement management study (Cameron Area Project, West Section 7 Area Project).

- . . . . . Upgrades for the streets identified as partnership projects with the County of San Bernardino (Rimrock Road and Jasper Road).
- . . . . . Funding for the City's annual Pavement Preservation Program.
- . . . . . Funding for the City's share of the costs for the First Avenue Bridge repair.

### Recommended Action

Staff recommends that the City Council approve Resolution No. \_\_\_\_\_-2013 (Exhibit A), adopting the City of Barstow's Measure I Capital Improvement Program for Fiscal Year 2013/14 through 2018/19 and direct staff to forward a copy of the adopted resolution to SANBAG.

**CITY OF BARSTOW**

**MEASURE I CAPITAL IMPROVEMENT PLAN**

**EXPENDITURE STRATEGY  
2013-2018**

Each year, the City receives approximately \$2.1 million in Measure “I” funds. Last year, on September 17, 2012, the City Council approved joining the Statewide street financing program called the Total Road Improvement Program (TRIP) offered by the California Statewide Communities Development Authority (California Communities). Through the TRIP program, the City can pledge two-thirds (2/3) of its annual Measure “I” allocation towards a financing measure to raise funds for the rehabilitation and reconstruction of City streets in failing conditions.

The remaining one-third of Measure “I” allocations will be used by the City in the pavement preservation and maintenance of the streets, reconstructing street segments related to the First Street Bridge, constructing the Lenwood Grade Separation project, reconstructing City streets, and reconstructing streets in partnership with the County of San Bernardino.

## **CITY OF CHINO**

### ***EXPENDITURE STRATEGY*** **(2013-2018 MEASURE I TRANSPORTATION PLAN)**

---

The City of Chino will continue to place emphasis on both the regional and sub-regional arterial roadway system during the next five years of the Measure I program. At least 50 percent of the Measure I funds will be earmarked for specific capital projects that are geared toward improving traffic flow and motorist convenience. Falling pavement surfaces will be rehabilitated and traffic striping modified as needed to accommodate increased traffic demand, and intersection capacity will be improved with new and modified traffic signals.

In addition to the above capital projects program, Chino will continue to allocate up to 50 percent of the annual Measure I funds toward public works maintenance activities. Maintenance work will continue to include the City's traffic signal maintenance, sidewalk and curb repair, and pavement repair and overlay on the local street system.

ITEM NO. 9

## STAFF REPORT

DATE: OCTOBER 15, 2013  
TO: HONORABLE MAYOR AND CITY COUNCIL  
FROM: STEPHEN P. COMPTON, INTERIM CITY MANAGER *SK*  
PREPARED BY: AMER JAKHER, P.E. PUBLIC WORKS DIRECTOR *AJ*  
SUBJECT: MEASURE I FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM  
PLAN/CAPITAL PROJECT NEEDS ANALYSIS

### RECOMMENDED ACTION

It is recommended that the City Council:

1. Approve Resolution No. R-80-13 reaffirming and adopting Fiscal Year 2013/2014 Measure I Five-Year Capital Improvement Program and Expenditure Strategy Plan.
2. Approve Resolution No. R-81-13 approving submittal of the Fiscal Year 2014/2015 – 2018/2019 Five-Year Capital Projects Needs Analysis to the San Bernardino Associated Governments, as required by the Measure I Strategic Plan.

### GOAL STATEMENT

The proposed action will support the City's goal to maintain and improve the City's roads and transportation systems.

### BACKGROUND

In 1989, the San Bernardino County voters approved the passage of Measure I, authorizing San Bernardino Associated Governments (SANBAG) acting as the San Bernardino County Transportation Authority, to impose a one-half of one-percent sales tax through 2010. This tax revenue is designated for transportation and traffic management programs. In 2004, voters approved an extension of this sales tax through 2040.

### ISSUES/ANALYSIS

#### Measure I Five-Year Capital Improvement Program and Expenditure Strategy Plan

Measure I requires that each local jurisdiction receiving program revenues annually adopt a Five-Year Capital Improvement Program and an Expenditure Strategy Plan. The Five-Year Capital

Improvement Plan and Expenditure Strategy Plan outlines how the local agency plans to expend its funds. As part of the County-Wide Measure I Sales Initiative Program, the measure requires an annual adoption and update of the respective plans.

Measure I Local Pass-Through funds revenue for Fiscal Year 2013/14 to 2017/18 is estimated at \$4,188,296. Attached as Exhibit 'A' is Fiscal Year (FY) 2013 to 2018 Five Year Measure I Capital Improvement Program and Expenditure Strategy Plan. The plan identifies a five-year plan for Capital Improvement Projects identifying specified projects and their cost. The proposed projects are:

- FY 2013/2014 - Colton Crossing Project, Seismic Retrofit, Pavement Rehabilitation
- FY 2014/2015 - Seismic Retrofit, Pavement Rehabilitation, Slurry Seal
- FY 2015/2016 - Pavement Rehabilitation, Bridge Projects
- FY 2017/2018 - Pavement Rehabilitation, Bridge Projects, Slurry Seal
- FY 2018/2019 - Pavement Rehabilitation, Bridge Projects, Slurry Seal

This plan reflects on-going projects identified in the Capital Improvement Program. Staff recommends approval of the attached Resolution No. R-80-13, affirming the Capital Improvement Program and Expenditure Strategy Plan for Fiscal Year 2013/2014 through Fiscal Year 2017/2018.

#### Measure I Five-Year Capital Project Needs Analysis

In April 1, 2009, SANBAG Board of Directors approved the Strategic Plan, which is the reference manual and policy document for the administration of Measure I 2010-2040 programs by SANBAG and its member agencies. The Strategic Plan requires all local jurisdictions applying for revenue from the Measure I-Valley Street and Freeway Interchange Programs to annually adopt and update a Five-Year Capital Project Needs Analysis. Staff requests authorization (Resolution No. R-81-13) to submit the updated Capital Project Needs Analysis for FY 2014/2015– FY 2018/2019, attached to this report as Exhibit C.

Local jurisdictions apply for funds from the Valley Street and Freeway Interchange Programs to finance improvements along City arterial roadways and interchanges. Attached as Exhibit D, is the Nexus Annual Report that reflects the funds collected by the City in Nexus Traffic Impact Fees for Fiscal Year 2012/2013. For Fiscal Year 2014/2015, the projects identified for allocations are arterial improvements to the La Cadena Drive over Santa Ana River Bridge Replacement Project, Mount Vernon Avenue over UPRR Bridge Widening Project and Washington Street Extension. These projects are all identified in our current Capital Improvement Program.

The prior and current year Measure I Arterial Funding, with the required Development Impact Fee (DIF) match, were used and will be used as a match for the Safe, Accountable, Flexible, Efficient Transportation Equity Act: a Legacy for Users (SAFETEA-LU)/High Priority Projects (HPP) and Highway Bridge program (HBP) funding awarded to the City for the Mt. Vernon

Avenue Bridge Widening Project in the amount of \$2,550,891 (HPP=\$1,439,839; HBP=\$1,111,052). This funding is intended for Preliminary Engineering and requires 20% local match for HPP and 11.47% for HBP in the amount of \$503,909. Likewise, the City was awarded Highway Bridge Funding (HBP), to replace La Cadena Drive Bridge over Santa Ana River. The grant amount for the Preliminary Engineering is \$2,456,707, and requires 11.47% local match in the amount of \$318,293.

## **FISCAL IMPACTS**

Adoption of Measure I Five Year Capital Improvement Plan and Expenditure Strategy Plan, and Measure I Five-Year Capital Project Needs Analysis are required to receive and expend local Measure I funds.

## **ENVIRONMENTAL IMPACTS**

Each of the Projects listed on the Measure I Five Year Capital Improvement Plan and Expenditure Strategy Plan, and the Measure I Five-Year Capital Project Needs Analysis are required to comply with the National Environmental Protection Agency (NEPA) and/or California Environmental Quality Acts (CEQA).

Measure I Expenditure and Strategy Plan

**City of Colton  
MEASURE "I" EXPENDITURE STRATEGY  
PLAN  
A NARRATIVE**

---

The City of Colton allocates approximately seventy-five percent of its annual Measure I revenue for system enhancement improvements to its street infrastructure. Delivery of these improvements is focused on streets requiring rehabilitation or capacity enhancement improvements. On occasion, the seventy-five percent may be impacted when the City opts to utilize Measure I funds to provide a grant funded project the required matching funds; these projects would be focused on improving Colton's infrastructure and/or transportation system for pedestrian/bicycle/vehicular traffic.

The remaining twenty-five percent of the City's annual Measure I allocation will be allocated to traffic safety and streets exhibiting signs of stress, which can be remedied by providing a variety of maintenance applications; including, but not limited to a slurry seal application to the stressed pavement. All identified improvements are compliant with the goals of the city's General Plan Circulation Element.

### MEASURE I CAPITAL IMPROVEMENT PLAN

#### EXPENDITURE STRATEGY

**Fiscal Year 2013/14 – Fiscal Year 2017/18**

The majority of Measure I revenue is planned to be utilized for the following types of eligible transportation improvements and policy prioritizations:

- Intent to allocate 50% or less of anticipated annual revenue on General Program Categorical expenditures. Specifically, the Measure I funds will be utilized annually to supplement the City's Street Division General Maintenance Program. This includes preservation and upkeep of existing and newly reconstructed roads to original constructed condition in order to maintain its integral useful life and to provide safe, convenient, and practical intercity transportation.
  - Intent to allocate the remaining 50% of the anticipated annual revenue on the rebuilding and betterments of local roadways, street bridges and public transit facilities. Specific projects in the current fiscal year include the Main Street Bridge Rehabilitation, Willow Street Bike/Pedestrian Paseo and the Bear Valley Road Bypass Bike Lane along Sequoia Street which will help to improve circulation and encourage alternative modes of transportation thereby alleviating traffic congestion and improving mobility. Full removal and reconstruction efforts are designated to roads in the City in the worst condition. Main Street from Interstate 15 to Escondido Avenue, and Main Street from Key Pointe to Cataba Avenue have been identified in the current fiscal year as high priority due to increased movement in the freeway corridor and construction of the High Desert Gateway Center and Super Wal-Mart located within a block of the interchange on Main Street and Interstate 15. These improvements will help to improve traffic service and renew the road's useful life. Preliminary work is being performed for the following individual projects which have been designated to meet future growth and capacity needs; expansion of the Park and Ride facility at Joshua Street and Highway 395; widening of Ranchero Road in connection with the new I-15 and Ranchero Road Interchange; and widening of the Main Street Bridge – Aqueduct Crossing. These projects will expand existing facilities to accommodate future growth as traffic volumes continue to increase.

COUNCIL AGENDA: October 8, 2013

FROM: T. Jarb Thaipejr, City Manager T.J.T.  
SUBJECT: Council Bill #R-2013-25 - Adopt Measure I Five-Year Capital Improvement Plan

Approved/Continued/Denied By City Council Date _____
--

## **RECOMMENDATION**

It is recommended that the City Council adopt Council Bill #R-2013-25, approving the City's Measure I Five-Year Capital Improvement Plan.

## **BACKGROUND**

Cities in San Bernardino County are required to adopt a Five-Year Capital Improvement Plan (CIP) for Measure I projects. Measure I revenues are generated by the County-wide transportation ½ percent sales tax program which is administered by the San Bernardino Associated Governments (SANBAG).

## **ANALYSIS**

The City Council approved the 5-Year CIP as part of the annual budget proposal at the May 28, 2013 meeting. The CIP list includes street improvement projects. The proposed Measure I 5-Year CIP is in compliance with the City's approved 5-Year CIP. City Council may change the Measure I Plan at any time to re-prioritize projects. Please refer to Attachment B, which lists proposed projects for the five-year period from FY 2013-18. As noted in the attachment, the expenditure over the 5 year period is estimated to be 2,017,100. However, Measure I revenue estimate, as provided by SANBAG, is \$1,857,559 over the same period. The difference of \$159,541 will be covered by the existing carryover of Measure I funding.

## **FINANCIAL IMPACT**

There is no fiscal impact as projects are not required to be constructed. This plan allows for funding opportunities.

### **MEASURE I CAPITAL IMPROVEMENT PLAN EXPENDITURE STRATEGY 2013-2018**

The City of Loma Linda is intent upon efficiently maintaining our existing roadway system. The streets in Loma Linda are constructed of asphalt concrete (AC). These streets are in various stages of their life expectancy. A typical AC street improvement has a life expectancy of 15-20 years. Through proper pavement management, this can be extended by as much as 20 years. Our strategy is to utilize a combination of slurry seal method, grind and overlay the top 0.1' and pulverize existing AC for base and repave for rehabilitation. This pavement management program has shown to be effective in delaying the eventual complete reconstruction, including subgrade, of a roadway segment.

Measure I funding is critical to this effort. We have dedicated the majority of funding to maintenance activities as described above along with the adjacent sidewalk, curb, gutter and access ramp maintenance. A portion of funding is earmarked for addressing increased capacity demand along certain segments that have experienced growth. New roadway segments may be considered in the future and will be addressed with CIP planning at that time.

For City Council Meeting

TO: Honorable Mayor and City Council

APPROVAL: Michael Story, City Administrator

FROM: Marcus L. Fuller, P.E., P.L.S., Public Works Director/City Engineer

Request City Council to Adopt Resolution No. \_\_\_\_\_, Approving the Fiscal Year Measure I - Five Year Capital Improvement Plan, and Expenditure Strategy,.

**BACKGROUND:**

Measure I is the half-cent sales tax collected throughout San Bernardino County for transportation improvements. San Bernardino County voters first approved Measure I in November 1989 to ensure that needed transportation projects were implemented countywide through 2010. In 2004, San Bernardino County voters approved the extension of the Measure I sales tax through 2040.

San Bernardino Associated Governments (SANBAG) administers Measure I revenue and is responsible for determining which projects receive Measure I funding, and ensures that transportation projects are implemented. Measure I funds are allocated based on a strategic plan.

Rialto receives a share of the local portion of the Measure I revenue based on population for improvements of local streets and roads. Additional Measure I funds are "pooled" for major transportation projects, including freeway projects, major streets that serve as transportation arteries, the Metrolink train, Omnitrans support for elderly and disabled riders, and traffic management/environmental enhancement projects, such as signal synchronization programs, landscaping, irrigation and beautification efforts.

Determination of the projects to be funded by the Local Distribution Program is at the discretion of the governing body as adopted in the Capital Improvement Program and consistent with the Expenditure Strategy adopted by the local agency. Each local jurisdiction provides SANBAG with a copy of the Five-Year Capital Improvement Program and Expenditure Strategy adopted annually.

The SANBAG Board of Directors has adopted guidelines relative to eligible Measure I projects. Highlights of the guidelines include:

- Projects may include roadway improvements, general maintenance, and pavement management programs.
- There is a 50% limit on total categorical projects.

- Projects using Measure I funds of over \$100,000 must be listed individually in projects section.

**ANALYSIS/DISCUSSION:**

Staff recommends that the City Council approve and adopt the Measure I Capital Improvement Plan and the Expenditure Strategy as outlined in the exhibits to the attached Resolution. Measure I funding for FY2012/2013 has been spent primarily on the Rails to Trail project, Ayala Avenue Widening and the Annual Slurry Seal projects. The current plan includes a new signal at Riverside and Linden Avenues, Rails to Trails partial funding for grant matching, the Ayala Avenue Widening grant matching, multiple streets included in the Street Overlay project (as listed individually), and the Baseline Median at Cactus Avenue and Baseline Road are all budgeted in the current fiscal year.

**ENVIRONMENTAL IMPACT:**

The plan is exempt from California Environmental Quality Act (CEQA) review per Section 15268, Ministerial Projects. Section 15268 allows for public agencies to make non-discretionary determinations as a part of implementing its regulations. However, the individual projects are subject to the CEQA process and will be reviewed and approved on an individual basis.

**GENERAL PLAN CONSISTENCY:**

Approval of this action complies with the City of Rialto General Plan Goals and related Policies:

- Goal 4-1: Provide transportation improvements to reduce traffic congestion associated with regional and local trip increases.**
- Goal 4-2: Protect residential neighborhoods from through traffic impacts.**
- Goal 4-3: Protect residences, sensitive land uses, and pedestrians from activities along rail corridors.**
- Goal 4-4: Protect school children and others from traffic hazards around schools.**
- Goal 4-5: Ensure the provision of adequate, convenient, and safe parking for all land uses.**
- Goal 4-6: Provide for all residents and businesses to have equal access to reliable and convenient public transit services.**
- Goal 4-7: Achieve optimum use of regional rail transit.**
- Goal 4-8: Establish and maintain a comprehensive system of pedestrian trails and bicycle routes that provide viable connections throughout the City.**
- Goal 4-9: Promote walking.**

**Goal 4-10: Provide a circulation system that supports Rialto's position as a logistics hub.**

**LEGAL REVIEW:**

The City Attorney has reviewed and approved the staff report and resolution .

**FINANCIAL IMPACT:**

Sufficient appropriations are available to fund the projects for the current fiscal year as identified in the FY 2013/14 to FY 2017/18 Measure I Five Year Capital Improvement Plan. Funds will be budgeted during the budget process in the subsequent years of the plan.

**RECOMMENDATION:**

Staff recommends that the City Council adopt a Resolution approving the Fiscal Year 2013/14-2017/18 Measure I Five Year Capital Improvement Plan, and the Expenditure Strategy.

**CITY OF SAN BERNARDINO****MEASURE I FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM  
EXPENDITURE STRATEGY  
2013-2018**

The City of San Bernardino will continue to place emphasis on both its regional and sub-regional arterial roadway system. At least fifty percent of our Measure I funds allocation will be earmarked for specific capital projects that are geared towards improving traffic flow and motorist convenience. Failing pavement surfaces will be rehabilitated and traffic striping modified as needed to accommodate increased traffic demand; and intersection capacity will be improved with new and modified traffic signals.

In addition to the above capital projects program, San Bernardino will continue to allocate up to fifty percent of our annual Measure I funds towards public works maintenance activities. Maintenance work will continue to include the City's traffic signal systems, sidewalk and curb repair, and pavement repair and overlay on the local street system.

**RECOMMENDATION(S)**

Adopt **Resolution No. 2013-222** approving the annual update to the Measure "I" one-half of one percent sales tax Local Street Program Capital Improvement Plan (Exhibit "A") and the Expenditure Strategy (Exhibit "B") for the next five years, 2013-14 through 2017-18. **BOARD OF SUPERVISORS COUNTY GOALS AND OBJECTIVES**

**Operate in a Fiscally-Responsible and Business-Like Manner.

Pursue County Goals and Objectives by Working with Other Governmental Agencies.**

**FINANCIAL IMPACT**

Approval of the 2013-18 Local Street Program Capital Improvement Plan (CIP) project list covering 2013-14 through 2017-18 will not result in the use of Discretionary General Funding (Net County Cost) or cost to the Department of Public Works (Department). The CIP project list identifies projects assigned to utilize current and future Measure "I" sales tax revenues. Appropriation is included in the Department of Public Works Road Operations budget for the 2013-14 projects identified in the CIP.

**BACKGROUND INFORMATION**

Approval of this item will adopt a resolution that approves the County of San Bernardino Measure "I" Local Street Program CIP project list for 2013-18 and the corresponding expenditure strategy attached to the resolution as Exhibits "A" and "B", respectively. Each of the project lists included in the CIP are updated annually to reflect the addition of new projects, update projects that may have been delayed to future year(s) or moved forward to an earlier year, or revise cost estimates as necessary. The resolution and project list will be submitted to the San Bernardino Associated Governments (SANBAG) for its records, as a requirement of the Measure "I" program.

DATED: October 22, 2013

**MEASURE "I" FIVE-YEAR LOCAL STREET PROGRAM CAPITAL  
IMPROVEMENT PLAN PROJECT LIST  
OCTOBER 22, 2013  
PAGE 2 OF 2**

On November 7, 1989, Measure "I" 1990-2010 (Measure "I" Ordinance 89-1) was passed by voters of the County of San Bernardino (County), approving a one-half of one percent sales tax to fund a 20-year road improvement program. The ordinance requires an update of the Local Street Program plan annually. Measure "I" Ordinance 89-1 expired on March 31, 2010; however, a 30-year extension to the Measure "I" program (Measure "I" 2010-2040) was passed by County voters on November 2, 2004 (Measure "I" Ordinance 04-01). This extension began funding road related projects on April 1, 2010.

The Expenditure Plans of Measure "I" Ordinance 89-1 and Ordinance 04-01 require each local jurisdiction receiving Local Street Projects Program revenue from sales tax to expend those funds pursuant to a five-year Capital Improvement Plan adopted by resolution of the local jurisdiction and updated annually.

Revenues from the sales tax must be used for transportation improvement and traffic management programs, which may include, but is not limited to, administration, construction, maintenance, improvements and operations of local streets, roads, and highways, state highways, and freeways and other related purposes. These purposes include expenditures for planning, environmental reviews, engineering, right-of-way and design.

The total estimated cost of the transportation projects listed in the proposed five-year plan is \$54,872,705.

- Projects completed or Measure I funding share completed 2012-13:
  - Amboy Road and Morongo Road surface treatments (Twentynine Palms)
  - Live Oak Drive rehabilitation (Running Springs)
  - Trona Yard various locations surface treatment (Trona)
  - Barstow Yard various locations surface treatment (Barstow)
  - Routine maintenance and snow removal (Countywide)
- New projects 2013-14:
  - Helendale Road rehabilitation (Silver Lakes)
  - Vista Road rehabilitation (Silver Lakes)
  - Shadow Mountain Road scrub/overlay (Helendale)
  - Seventh Street rehabilitation (Bloomington)
  - San Bernardino Avenue rehabilitation (Fontana)
  - Spring Valley Lake various locations scrub/slurry/overlay (Spring Valley Lake)

There is another item on today's agenda to consider approval of the Measure "I" Valley Major Street and Freeway Interchange Program five-year Capital Project Needs Analysis project list covering 2014/15 through 2018/19. Both items are related to proposed project lists for the Measure "I" ordinance and one-half of one percent sales tax. However, this project list only includes projects funded by the Local Street Program and administered by the Department of Public Works with pass through funds.

**REVIEW BY OTHERS**

This item has been reviewed by County Counsel (Scott M. Runyan, Deputy County Counsel, 387-5455) on September 24, 2013, Finance (Cory Nelson, Administrative Analyst, 387-4378) on October 3, 2013, and County Finance and Administration (Mary Jane Olhasso, Assistant Executive Officer, 387-4599) on October 7, 2013.

MEASURE I FIVE YEAR PLAN, FISCAL YEARS 2012/13-2017/18

**SUBJECT:** MEASURE I FIVE YEAR PLAN

The adoption of the Five Year Plan does not have a direct fiscal impact. An additional appropriation is not required. Expenditures on projects, programs and operations will be in accordance with the approved fiscal year 2013/2014 City budget.

**DISCUSSION:**

Each year in accordance with the Measure I requirements, the City is required to adopt a Five Year Capital Improvement Plan. The plan has a different format this year that does not differentiate between the 1990-2010 Measure I and the 2010-20140 Measure I. The City does, however, keep these funds in separate accounts. The City's actual Measure I revenue for FY 2012-2013 was \$4.20 million; the SANBAG estimate for revenue in FY 2012/2013 is a 3.0% increase. The revenue that would be received by the City is being withheld by SANBAG to pay for the City's estimated remaining share of \$11,576,175 for the La Mesa / Nisqualli / I-15 Interchange project in accordance with the cooperative agreement between the City and SANBAG. Based on the SANBAG revenue estimates, the revenue probably will be withheld until about March of 2017. City traffic signal maintenance, signing, striping, traffic engineering, match commitments to projects and a scaled back pavement rehabilitation will rely on the carry over balance in Measure I for the next two and a half years. Some specific projects that are in the plan for future fiscal years will likely be revised after the City receives an updated pavement management system report that will be used to select future street rehabilitation projects.

Upon adoption of the attached resolution, the City Clerk will forward a copy to SANBAG for inclusion in their planning documents.

Staff recommends that City Council adopt the attached resolution to adopt the five year Measure I Capital Improvement Plan.
