

The Four Corners Transportation Coalition Presents:

2006

# Transportation Summit

**July 28, 2006**

**Location:** The Diamond Bar Center  
Located atop Summitridge Park  
1425 Summitridge Dr.  
Diamond Bar, CA 91765

- Check-in: 8:45 to 9:15 a.m. • Program: 9:15 a.m. – 1:30 p.m.
- Lunch will be provided.

**Be a part of the solution!** Join us to discuss the issues and opportunities regarding traffic congestion within the Four Corners area. The "Four Corners" area is generally bounded by the SR-60, SR-91, I-15 and SR-57 freeways. The "Four Corners" area serves as a key international trade corridor, connecting the world's fifth largest port complex with the national goods distribution centers located throughout the Inland Empire. We must ensure that our transportation system becomes efficient and free of congestion. To ensure that Southern California's quality of life remains high for future generations, and our economy strong, now is the time to invest in our future by joining together to advocate transportation infrastructure improvements and funding.
