## Weekend closure of intersection of Milliken Avenue and Airport Drive in Ontario

**ONTARIO, CA** – As part of The North Milliken Grade Separation Project, the city of Ontario and San Bernardino Associated Governments will require the closure of northbound Milliken Avenue and westbound Airport Drive at the intersection of these two streets starting TONIGHT, Friday, April 26 at 9:00 PM and continue through Monday, April 29 at 5:00 AM.

The intersection closure is needed in order to remove the existing asphalt pavement and re-construct the intersection with new concrete pavement. The concrete poured will be rapid set concrete enabling the intersection to be opened to traffic by Monday morning. Work will be around the clock and the crews will be forming the concrete lanes during the day and pouring at night. **Detours are available. (see map below)**

The ‘North Milliken Grade Separation Project’ is an endeavor to separate rail traffic from vehicular traffic where the two systems cross just south of Interstate 10. In the summer of 2012, rail traffic began crossing Milliken on the first of two new bridges built for this need. Eliminating the at-grade crossing increases safety, improves mobility and enhances the quality of life for those who live and work near Milliken Avenue in Ontario.
