Nighttime Lane Closures on I-15 in Hesperia

Hesperia, CA – The Ranchoero Road Interchange Project team will implement lane closures of both directions of Interstate 15 between Oak Hills Road and US 395 to install embedded traffic loop detectors that allow for improved monitoring and operation of the freeway. These nighttime lane reductions will take place Monday through Thursday, January 26 – 29, between the hours of 9:00 pm and 6:00 am. (See [Closure Detail](#) below)

Motorists should use caution when traveling through the area. Earlier hours of the construction activity will leave at least two lanes open to traffic at all times. However, southbound operations after 11:00 pm and northbound operations after midnight will only leave at least one lane open until 5:00 am and 6:00 am, respectively. No detours required, but motorists are encouraged to adjust their travel schedules accordingly to minimize delay.

Closure Detail

Southbound
