

## PUBLIC NOTICE

### Interstate 10 Corridor Project

### Announcement of Public Scoping Meetings

#### WHAT IS BEING PLANNED?

The California Department of Transportation (Caltrans), in cooperation with the San Bernardino Associated Governments (SANBAG), proposes to improve and widen a 35-mile segment of the Interstate 10 (I-10) freeway from 2 miles west of the Los Angeles – San Bernardino County Line in the City of Pomona to Ford Street in the City of Redlands. The purpose of the proposed project is to facilitate the movement of people and goods through the I-10 corridor by managing traffic demand, improving travel times and increasing the use of carpooling and transit. An Environmental Impact Report (EIR) and Environmental Impact Statement (EIS) will be prepared to evaluate multiple alternatives as well as potential environmental impacts that could result from the proposed project. Analyses supporting the EIR/EIS will determine the type of facility necessary to meet the existing and future transportation needs in the corridor.

#### WHY THIS NOTICE?

To inform you of the initiation of studies and to give you an opportunity to comment on the proposed project. Two Public Scoping Meetings (listed below), will be held to provide an early exchange of information and ideas, with the opportunity for the public to ask questions or express concerns. Comments will become part of the public record and will be considered in defining the project scope and developing the EIR/EIS.
